# Saurav Patel

9200539212 | s.sauravinfo@gmail.com | LinkedIn | GitHub

**Career Objective —** To begin my career as an AI/ML Developer in a growth-oriented organization where I can utilize my skills in Python, Machine Learning, Data Structures, SQL, and AI frameworks to develop innovative solutions while enhancing my technical expertise and contributing to the organization's success.

## Academic Record

**Bachelor of Technology with specialization in Data Science** — **2022–2026**
*Acropolis Institute of Technology and Research, Indore* — *CGPA: 7.13 (Max SGPA: 8.39)*

**Higher Secondary School (MP-Board)** — **2021-2022**
*R.S. Bela Singh Hr. Sec. School, Jabalpur* — *Percentage: 70%*

**Senior Secondary School (MP-Board)** — **2019-2020**
*R.S. Bela Singh Hr. Sec. School, Jabalpur* — *Percentage: 89%*

## Core Skills

**Languages:** Python, JavaScript, SQL
**Library:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Machine Learning, GitHub, MongoDB, React, HTML, CSS, Node, Express, Rest Api

## Training & Internship

**Infobeans Foundation** — **Apr 2025 – present**
*Software Development Trainee – ITEP Program*

- Undergoing intensive training in Python programming, SQL, and AI fundamentals, with hands-on implementation of real-world projects and coding assignments.
- Developed and deployed RESTful APIs and React, demonstrating proficiency in end-to-end feature development.
- Collaborating on project-based learning activities while following software development best practices, version control, and code optimization techniques.

## Projects

**Frameza** — **Jan 2026 – Feb 2026**

- Developed Frameza, a full-stack web application using the MERN Stack (MongoDB, Express.js, React.js, and Node.js), featuring secure user authentication, responsive UI, and efficient CRUD operations.
- Implemented RESTful APIs, MongoDB database integration, and dynamic frontend components to provide a seamless user experience with real-time data management and scalable architecture.

**Ford Car Price Prediction** — **Jun 2026 – Jul 2026**

- Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Linear Regression
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and feature selection to improve data quality and model performance.
- Visualized data patterns and feature relationships using Matplotlib and Seaborn to identify key factors affecting vehicle prices.
- Utilized Pandas, NumPy, Matplotlib, and Seaborn for data analysis, visualization, and model performance evaluation.

**Heart Disease Prediction** — **Jun 2026 – Jul 2026**

- Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Logistic Regression
- Developed a Heart Disease Prediction model using Python and Logistic Regression to classify the risk of heart disease based on patient medical data.
- Performed data preprocessing, EDA, feature engineering, and model evaluation, achieving reliable classification performance using standard evaluation metrics.
- Built an end-to-end Machine Learning pipeline in Jupyter Notebook for data cleaning, model training, evaluation, and disease prediction to support early diagnosis.

## Achievements

- Department Scholar Award – 8,000rs scholarship awarded for securing outstanding academic performance in the 4th and 6th semesters.
- GitHub: 20+ Repositories
- Certified by Nvidia

## Strengths & Interests

**Strengths:** Leadership, Adaptability, Integrity
**Hobbies:** Teaching, Coding, Cricket

**Declaration:** I hereby declare that the information furnished above is true to the best of my knowledge.

**Saurav Patel**
